

The evening of 2/18/'25 Cliff passed away around 4pm. Sandra and Cliff's children were by his side and he was calm and simply slipped away.

Many of you will remember that Cliff Green was a member of the GWC from 2013 until 2023. His Ford Woody was a masterpiece, one he shared with us every year at Sully. His skill rebuilding the Early Ford V-8 distributor was extraordinary. He was a founding member of the Northern Virginia Regional Group, and recognized nationally as a Woody expert.
